

Priority (Hi, Med, Low)	Status	Issue / Concern	County(ies) related	Date Requested	Assigned to	Feedback / Resolution
HI	On going	EPA CLs do not have the ability to handout approved fliers because of printing limitations	ALL	9/7/2017 ???		We heard that David Gray has approval now to make the necessary amount of copies for approved fliers on 9/11/17. A spreadsheet was sent to Janetta on 9/12/17 for the amount and files need to be printed.
HI	On going	EPA CLs have been asked by local / county officals whether EPA recommends bleach as a cleaning agent for mold in flood impacted homes. Local news media is giving out information to ONLY hire private contractors with speical cleaning agents and to NOT use bleach. A request was made by the local officals to make a social media push on Face Book and Twitter that EPA does approve of bleach.	ALL	9/12/2017 ???		
HI	On going	Two houses are stuck in creek and...	Newton	9/12/2017 ???		
Med	On going	Many CLs do not have a mobile wifi hotspot for internet connecviity out in the field. This is problematic if 4 pm daily reports are required via email.	ALL	9/13/2017 ???		
Low	On going	It would be helpful to have a portable table to take on road to set up and use for EPA fliers at the various county EOCs etc..	ALL	9/13/2017		
HI	On going	HHW and debris collection is a serious issue but there doesn't seem to be a clear answer as to who is doing the collection and disposal	ALL	9/12/2017		
MED	On going	Two counties are decidedly rural and some of the methods used in densely populated urban areas will be much more difficult in the rural counties. No Disaster Recovery Centers have been opened up in the rural areas. Jasper County hosted a center in Jasper, Texas in 1996 after flooding in the area and the Jasper-Newton Emergency Operations Coordinator, Billy Ted Smith, has told us they would like to do so again	Jasper/Newton	9/12/2017		
HI	On going	Realizing there is one PIO and LO working out of Corpus Christi, can Community Liaisons use their expertise to help 'get the word out' to local media outlets about the available information. The EOM has stated that it has always been difficult to get the information to the rural areas. There also seems to be a particularly robust number of radio stations in the area. This would be most important if there is a Disaster Recovery Center in Jasper	Jasper/Newton	9/12/2017		
HI	On going	Waiting on the Vietnamese translations of the materials requested by Matagorda county environmental health director	Matagorda	9/11/2017
